PROFESSIONAL SUMMARY

A dedicated Senior IT Engineer with 12+ years of experience in optimizing IT operations and maintaining robust network infrastructures.

Infrastructure & Core IT: Strong expertise in Windows Server (2012/2016) administration, Linux OS setup, and local/remote data services. **Networking & Security:** Proficient in LAN/WAN setup, router/switch configuration, and Sophos Firewall maintenance. **Problem Solving:** Experienced in resolving complex system issues, ERP client support (Proximo/SAP), and providing prompt remote technical assistance. **Certified Professional:** Formally trained and certified in MCITP, CCNA, and CompTIA A+ from NIIT, New Delhi.

SKILLS

- **Windows Server Management:** Proficient in administering and configuring Windows Server 2016 and 2012 R2 environments, managing active directory, and supervising critical services like Wind-chill Remote Access and Tally Remote Data Services.
- **Linux System Administration:** Extensive hands-on experience in deploying, configuring, and troubleshooting various Linux distributions, including Ubuntu LTS (16.04 to 26.04), Kubuntu, and CentOS.
- **OpenMediaVault (OMV) Deployment:** Skilled in setting up OpenMediaVault OS for robust Network-Attached Storage (NAS) solutions, configuring user permissions, storage pools, and implementing automated file-sharing protocols across the corporate infrastructure.
- **Intranet Configuration & Maintenance:** Expert in designing, building, and maintaining secure enterprise Intranet frameworks to ensure seamless data exchange, unified internal communication, and stable local network resources.
- **Network Security & Firewalls:** Experienced in managing network integrity, implementing advanced security protocols, and configuring/maintaining Sophos Firewalls, routers, and managed network switches.
- **Network Infrastructure Design:** Competent in setting up and diagnosing complete LAN, WAN, and WLAN network topologies, managing structured cabling, and expanding network connectivity between corporate HQs and plant units.
- **Web & Graphic Design Foundation:** Foundational technical knowledge in web development technologies (HTML, CSS, JavaScript) paired with standard design software suites like Photoshop, CorelDraw, and GIMP.
- **ERP Client & Database Support:** Adept at handling client-side configurations, user management, and technical troubleshooting for Proximo ERP (php7.01) and SAP HANA systems.
- **Cross-Platform Troubleshooting:** Strong diagnostic skills for resolving complex hardware, peripheral, and OS-level bottlenecks across multiple platforms including Windows (7, 8.1, 10, 11) and enterprise servers.
- **Virtualization & Remote Storage:** Practical experience in managing virtualized environments via VMware infrastructure and managing data synchronization routines using WD Sharing Point tools.
- **Infrastructure Backup & Disaster Recovery:** Proficient in designing and executing strict multi-point data backup strategies (both manual and automated) on central servers to ensure high data availability and business continuity.
- **Communication & Surveillance Systems:** Skilled in installing, monitoring, and managing commercial Closed-Circuit Television (CCTV) systems alongside configuring enterprise EPABX/intercom telephone routing networks.

PROFESSIONAL EXPERIENCE

Senior IT Engineer

Emdet Engineers Pvt. Ltd. | Dharuhera, Haryana || Rudrapur, Uttarakhand, March 2018 – Present

Company Profile Context: Currently managing core IT operations at Emdet Engineers Pvt. Ltd., including infrastructure integration for Syska Miterr Private Limited —a high-tech joint venture between Syska LED Lights, Emdet Engineers, and Miter & Miter Group. The organization is driven by entrepreneurial technologists specializing in large-scale manufacturing of switchgears, lighting systems, wires, and cables.

Key Professional Responsibilities:

- **Multi-Site Infrastructure Integration:** Orchestrated and maintained seamless data communication, network synchronization, and systems integrity between the Corporate Headquarters (Gurugram) and Production Unit-1 (Dharuhera HSIIDC).
- **Enterprise Server Administration:** Expertly administered Windows Server 2016 environments, configuring and managing critical enterprise services including Wind-chill Remote Access, Tally Remote Data Services, and automated multi-point data backups.
- **OpenMediaVault (NAS) Implementation:** Successfully deployed OpenMediaVault (OMV) OS to establish a robust Network-Attached Storage solution, configuring secure automated file-sharing layouts and user-access policies.
- **Cross-Platform OS Management:** Supervised end-to-end deployment, peripheral configuration, and driver setups across diverse operating systems, maintaining stability on Windows (7/8.1/10/11), Windows Server 2016, and various Linux LTS distributions (Ubuntu 16.04 to 26.04, CentOS, Kubuntu).
- **Network Security & Firewalls:** Maintained high availability of network architecture by configuring and monitoring Sophos Firewalls, enterprise routers, managed switches, and structured intranet cabling pipelines to ensure zero business downtime.
- **ERP Architecture & Network Support:** Resolved critical client-side bottlenecks for Proximo ERP (php7.01 framework), mapped network printer topologies, and diagnostics for LAN/WAN/WLAN configurations.
- **Collaborative Tools & Communication:** Supervised digital collaboration architectures via Jitsi Meet, Microsoft Teams, and Zoom, while maintaining local hardware systems like CCTV surveillance loops and EPABX intercom telecom routing.
- **Technical Support Leadership:** Delivered top-tier remote and endpoint technical support while managing internal team dynamics, setting strategic productivity goals, and aligning IT support workflows with business objectives

CCE, DMS Client & Server Support

Agarwal Motors | Rudrapur, Uttarakhand, September 2016 – February 2018

- **Server & DMS Control:** Managed Windows Server 2012 R2 infrastructure running Dealer Management System (DMS), Tally 9, and internal file-sharing network setups.
- **Disaster Recovery:** Formulated and executed strict manual data backup routines on the central server to protect enterprise records against data loss.
- **IT Procurement & Upgrades:** Actively participated in technical procurement workflows, evaluated hardware/software resource requirements, and collaborated with cross-functional teams to deploy system upgrades.
- **Technical Training:** Conducted corporate user-training programs for office automation tools (MS Office suite) and resolved server-client architecture issues.

Network / Desktop Support Engineer

HCS | New Delhi, May 2012 – January 2016

- **Infrastructure Redundancy:** Served as the primary point of contact for disaster mitigation, providing critical backup systems and networks during live hardware or software failovers.
- **Network Documentation:** Designed, maintained, and logged comprehensive network topology diagrams and extensive infrastructure implementation blueprints.
- **SLA-Bound Support:** Delivered high-quality remote and on-site L2 technical support, debugging core OS defects, software vulnerabilities, and desktop peripheral issues.
- **Cost Optimization:** Developed cost-reduction strategies and hardware deployment proposals that successfully diminished organizational operational expenses.

Desktop Support Engineer

Simple Infosystems Pvt. Ltd. (Noida, Uttar Pradesh), August 2011 – April 2012

- Resolved multi-tier client technical inquiries for desktop hardware and client software.
- Assisted with computer software deployment, system updates, and logged diagnostic support tokens.

EDUCATION

Examination	Year	School/College	Board/University
Class X	2004	Inter College, Rudrapur (U.S. Nagar)	U.A.Board (Uttarakhand)
Class XII	2006	Inter College, Rudrapur (U.S. Nagar)	U.A.Board (Uttarakhand)
B.COM	2009	Kumaun University Nainital	Kumaun University

TECHNICAL QUALIFICATION

- **Higher Diploma in System and Networking (Global Net+)**

Institute: NIIT, Connaught Place, New Delhi, Duration: November 2009 – February 2012

- **MCITP (Microsoft Certified IT Professional)** — NIIT, New Delhi

1. Windows 7, Configuration: Specialized in enterprise client deployment, desktop security, and network setting configurations.
2. Windows Server 2008 Active Directory Configuration: Proficient in managing identity infrastructures, domain controllers, and group policies.
3. Windows Server 2008 Network Infrastructure, Configuration: Expert in setting up core network services like DNS, DHCP, routing, and remote access structures.
4. Server Administrator on Windows Server 2008 R2: Trained in full-scale server provisioning, backup management, and infrastructure monitoring.

- **CCNA (Cisco Certified Network Associate)** — NIIT, New Delhi

1. Routing and Switching: Thoroughly certified in configuring Cisco routers/switches, mapping network topologies, building VLANs, and managing secure LAN/WAN protocols.

- **CompTIA A+ (Systems Specialist)** — NIIT, New Delhi

1. CompTIA A+ Essentials &
2. CompTIA A+ Practical Application

- **Tally 7.2 & Foundation Computer Applications Institute:**

Bilingual (The School of Foreign Languages & Computer Education), Haldwani, Uttarakhand

PERSONAL DETAILS

- Father's Name: Mr. Gyanendra Bala
- Date of Birth: February 10, 1987
- Gender / Sex: Male
- Nationality: Indian
- Marital Status: Married
- Languages Known: English, Hindi, and Bangla
- Permanent Address: House No. 724, Sanjay Nagar, Ward No. 11, Rudrapur, Udham Singh Nagar, Uttarakhand - 263153, India

DECLARATION

All the above information is correct and under my knowledge. I would be responsible for any type of mistake.

Place: Rudrapur
